

**Lupin
Manufacturing
Solutions**

LUPIN

CDMO BY DESIGN. PARTNER WITH A PURPOSE.

Flexible engagement. Focused execution.
Formidable results.

SMALL MOLECULE. BIG IMPACT.

The Future of API CDMO starts here

From early development to market supply, LMS blends scientific depth, flexibility and strategic insight to deliver more than just products— we deliver solutions

INTERMEDIATES & BUILDING BLOCKS

Custom synthesis of key intermediates at lab, kilo and commercial scale

API DEVELOPMENT & OPTIMIZATION

Route scouting, process intensification, and cost-efficient scale-up

HPAPI & CONTAINMENT EXCELLENCE

Dedicated high-potent suites with OEB 5 handling capability

COMPLEX CHEMISTRY LEADERSHIP

Multi-step synthesis, chiral resolution, conjugation, deuterated & controlled substances

SEAMLESS SCALE-UP & TECH TRANSFER

Integrated labs → kilo labs → pilot → full commercial manufacturing

ANALYTICAL & REGULATORY STRENGTH

Method validation to Impurity profiling to stability studies at sites approved by USFDA, ANVISA, TGA, WHO

Innovation in Action Your Complex Chemistry CDMO

ADCs | Peptides | HPAPIs | Complex Conjugation

ADC Excellence

Linker-Payload Synthesis and Optimization, Antibody Discovery, Analytical method development & Scale-up

Peptide Powerhouse

Custom synthesis of simple to complex peptides including GLP-1 analogs to finished products

Complex Conjugation

Innovative conjugation capabilities for challenging payloads, linkers and scaffolds

Strategic Oncology Partner

One Roof, Full Journey. HPAPI Development to OEB 5 Containment.

Strategic GLP-1 Portfolio

Comprehensive capabilities including API + DP for Liraglutide & Glucagon

Molecule to Medicine

Integrated fill-finish & formulation capabilities for complex modalities

Integrated Solutions, Unrivaled Expertise

API to Drug Product CDMO

One Partner– From Development to Delivery

Seamless DS-to-DP Integration

Your single-source partner from development to commercialization

Oral Solid Dosage Expertise

From tablets to capsules—we deliver for generics as well as innovators

Complex Conjugation

Syrups, Suspensions, Emulsions—engineered for stability & bio-availability

Peptide-based Injectables

Liraglutide & Glucagon—DS-to-DP expertise in sterile injectables

Smart Device-driven Delivery

Innovative drug-device combinations from nasal sprays to auto-pen injectors

Global Reach, Local Expertise

CDMO services built for your market from regulatory support to secured supply chain

Backed by Lupin's Global presence with 15 manufacturing sites and 7 R&D parks across geographies
