About Us

Welcome to Kimia Biosciences Limited

Kimia Biosciences Ltd is a fully integrated Contract Development & Manufacturing Organization (CDMO) offering end-to-end solutions across Key Starting Materials (KSMs), intermediates, APIs and specialty chemicals. We partner with global innovators and generics companies to deliver high-quality products with agility and integrity.

Driven by innovation, regulatory excellence and sustainable practices, we combine deep scientific expertise with robust R&D and manufacturing capabilities to move your molecules from concept to commercial scale.

Our commitment: world-class quality, on-time delivery and reliable supply of products that enhance human health.

Contract Development & Manufacturing Organization

Business Focus- One step solution from molecules to finish products

CDMO SERVICES

ROS SCOUTING

IP EVALUATION

PROCESS DEVELOPMENT

IMPURITY PROFILING & SYNTHESIS

ANALYTICAL METHOD DEVELOPMENT

SCALE UP-KILO LAB & DELIVER

COMMERCIAL PRODUCTION

REGULATORY SUPPORT

Team

Meet Our Team!

Our leadership and professionals combine decades of expertise in chemistry, manufacturing, regulatory affairs and global markets.

Together, they drive Kimia Biosciences' commitment to innovation, quality and sustainable growth from intermediates to APIs to formulations.

Sameer Goel
Managing Director

A seasoned leader in the API industry with expertise in business development, strategic marketing, operations, and global pharmaceutical partnerships.

M.R.V. PRASADA Raju
Chief Operating Officer

A synthetic chemistry expert with over 35 years' experience in leading pharmaceutical manufacturing, R&D and global business operations.

Dr. Rita Sarin
Strategy & IPR

A seasoned intellectual property leader with nearly three decades of experience in strengthening IP portfolios and aligning innovation with business strategy.

Capabilities

Our Foundation of Excellence

Chemistry Expertise

Organic Synthesis · Chiral Chemistry · Polymorph Development

Carbon – Carbon Bond Formation

Grignard Reaction
Friedel-Crafts Acylation
Heck Coupling
Biginelli & Blaise Reactions

Function Group Transformation

Amidation
Bromination
Cyanation (NaCN/KCN)
High-Pressure Hydrogenation
Oxidation
Dehydrogenation

Chiral & Stereochemical Control

Asymmetric Synthesis
Chiral Resolution
Corey-Bakshi-Shibata
Reductions
Metal-mediated
Stereoselective Synthesis

Heterocycles & Polymer Chemistry

Fischer Indole Synthesis
Pictet-Spengler Isoquinoline
Synthesis
Polymeric Synthesis
Polymorph Identification &
Scale-Up

Our Strengths:

Proven Expertise in Process Development & Scale-Up

Proven Track Record
High-Purity innovative
process globally delivered

Complex Reaction Expertise
Skilled in R&D, Scale-up and
Production

Non-Infringing Routes
Strong IP-safe Process
Development

Data Integrity & Confidentiality
Total confidentiality and verifiable
data integrity

Global Patent Filed
Innovation recognised and
protected worldwide

Hazardous & Specialty Handling
Equipped with complicated and
hazardous reactions

API Accreditation & Approvals

Approved by Department of Scientific & Industrial Research and follows WHO guidelines for GMP

Approved by WHO-GMP certification and also have WC and COPP

ISO Certified –9001.2015

ISO Certified –14001.2015

ISO Certified –45001.2018

Approved by PIC/S (Korea) certification

Approved by KFDA certification

Approved by EHS certification

Approved by OHSAS certification
